

# XStream-PKG™ RF Modems

900 MHz - 2.4 GHz - Stand-alone Radio Modems by MaxStream, Inc.

## Long Range Performance

Indoor/urban Range:	up to 1500' (450 m)
Outdoor line-of-sight Range:	up to 7 miles (11 km) w/ 2.1 dB dipole antenna
Outdoor line-of-sight Range:	up to 20 miles (32 km) w/ high-gain antenna
Receiver Sensitivity:	-110 dBm (@9600 bps)

## Advanced Networking & Security

Retries & Acknowledgements for reliable packet delivery  
7 Frequency Hopping Channels - each with 65K available addresses  
Peer-to-peer (no master/slave dependencies), point-to-point,  
point-to-multipoint & multidrop network topologies supported

## Easy-to-Use

No configuration is necessary for out-of-box RF operation. Simply feed data into one modem, then the data is sent out the other end of the wireless link.

If more advanced functionality is needed, the modems support an extensive set of AT and binary commands.

## Data Interface Options

**XStream-PKG-R™**  
RS-232/485

**XStream-PKG-E™**

## Key Features

### Price-to-Performance Value.

Due to innovations stamped in its design, the XStream Modem yields 2-8x the range of competing modems. This allows OEMs and integrators to cover more ground with fewer devices. Additionally, XStream Modems are easy-to-use and therefore greatly reduce the cost of data system development.

### Receiver Sensitivity.

MaxStream modems 'hear' what others cannot; therefore supplying greater range and reliability in wireless links. For every 6 dB gained in TX power or RX sensitivity, OEMs and integrators can double the range of a wireless link. XStream Modems outperform higher costing modems due in large part to range gained through superior RX sensitivity.

### Low Power Consumption.

For power-sensitive applications; Pin, Serial Port and Cyclic Sleep Modes are available. Power-down currents reach below 1 mA.

### Worldwide Acceptance.

FCC (U.S.A.), IC (Canada), ETSI (Europe)

Systems that contain XStream Modems inherit MaxStream's certifications. Contact MaxStream for a complete list of government agency approvals.
