

100W Single Output Switching Power Supply

CLG-100 series

Features :

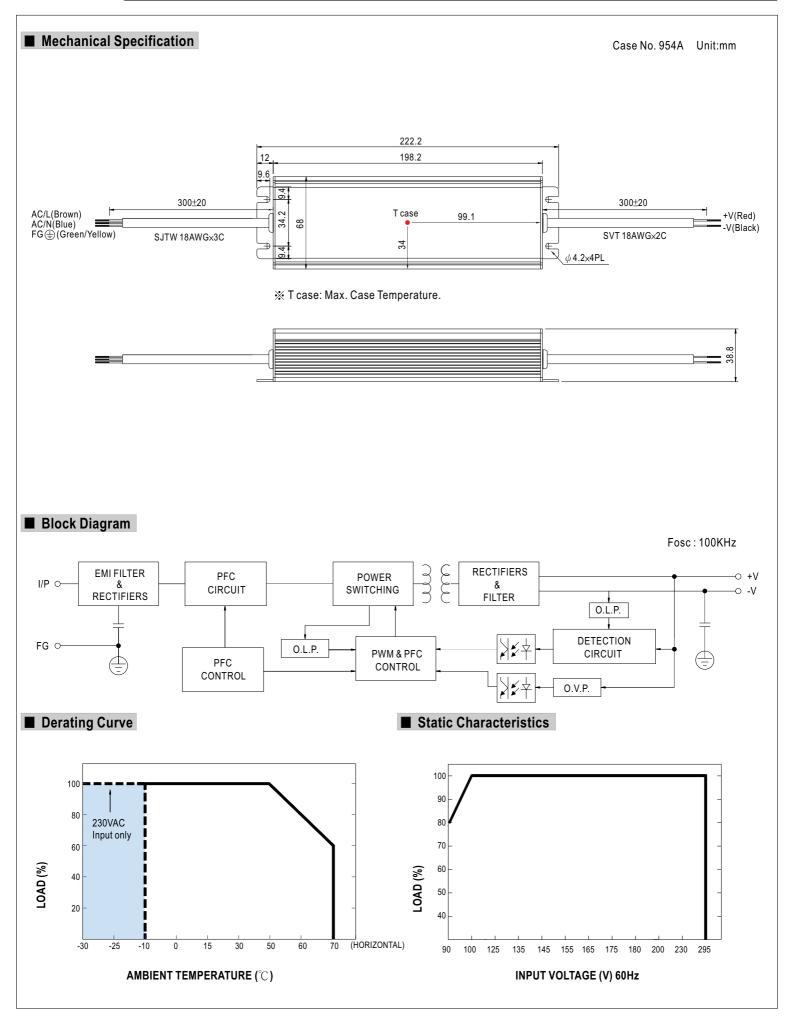

- Universal AC input / Full range (up to 295VAC)
- Built-in active PFC function
- High efficiency 90%
- Protections: Short circuit / Overload / Over voltage / Over temperature
- Cooling by free air convection
- · IP67 design for indoor or outdoor installations
- UL1310 Class 2 power unit
- Pass LPS
- 100% full load burn-in test
- High reliability
- Suitable for LED lighting and moving sign applications
- Compliance to worldwide safety regulations for lighting
- Suitable for dry / damp / wet locations
- 3 years warranty (Note.6)

			•	VAC input rated l	and and 25°C of a	mbient temperature			
OTE	 All parameters NOT specially mentioned are measured at 230VAC input, rated load and 25℃ of ambient temperature. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor. Tolerance : includes set up tolerance, line regulation and load regulation. Derating may be needed under low input voltages. Please check the static characteristics for more details. This is the maximum possible output current and power, over load protection may be activated slightly below this level to comply with the requirement

CLG-100 series

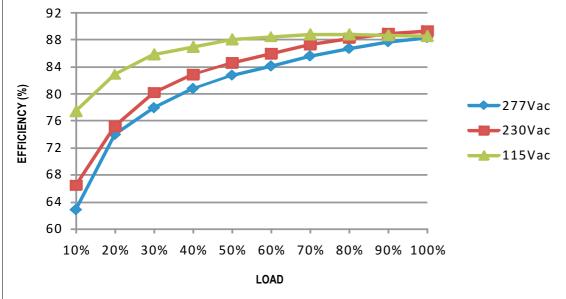

Power Factor Characteristic

EFFICIENCY vs LOAD (48V Model)

CLG-100 series possess superior working efficiency that up to 89% can be reached in field applications.

DRIVING METHODS OF LED MODULE

There are two major kinds of LED drive method "direct drive" and "with LED driver".

A typical LED power supply may either work in "constant voltage mode (CV) or constant current mode (CC)" to drive the LEDs. Mean Well's LED power supply with CV+ CC characteristic can be operated at both CV mode [with LED driver, at area (A)] and CC mode [direct drive, at area (B)].
