

DFRobot

Interface Shield For Arduino

(SKU: DFR0074)

Introduction

This interface shield supports multi-interfaces, SPI interface (directly connected Shiftout module, [SPI LCD display module](#), SPI LED display module), IIC Interface (direct connects IIC ICD display module, IIC transfer IO module), Micro SD card interface (Micro SD card can be directly inserted), [SD card storage module interface](#), TLC full-color LED controller module.

Specification

- Multi-function expansion board
- Compatible with Arduino
- Supports SPI Interface, IIC interfaces, SD card, TLC5940

Documents

- [Fat Library](#)
- [TLC Library](#)

- [Schematics](#)

Compability

- Arduino UNO
- Arduino Duemilanove
- Arduino Mega 1280/2560 (Not compatible)
