

DINKLE PLUGGABLE T/ BLOCK 5.08MM 300V/15A

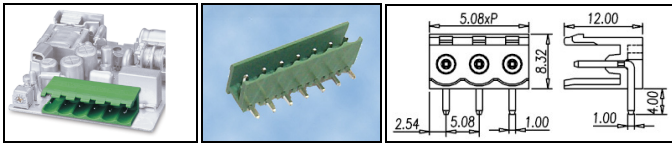

A range of two part, green Nylon PCB terminal connectors for direct connection to PCBs with hard wire screw terminals, accommodating conductor sizes up to 2.5mm sq. The female connector is available in numerous way versions, as is the molded male header connector with the option of straight or right angled PCB pins. The connectors are modular and end stackable so any number of poles can be created. The connectors incorporate a tinned phosphoric bronze cage clamp terminal and a funnel-shaped cable entry to aid conductor insertion.
